

The Evening Bulletin.

DANIEL LOGAN, Editor.

SATURDAY - - DEC. 7, 1895.

PUBLIC ACCOUNTS.

Receipts of the Hawaiian Treasury for November were \$238,945.80, against \$296,994.65 for the corresponding month in 1894. There were Government bonds sold to the tune of \$18000 as compared with \$500 in November last year. There was an increase of about \$10,000 in customs duties and nearly \$5500 in fines, etc. Government realizations were greater than last year by \$33,500 in round numbers, taxes by \$2400 and odd, and educational revenue by nearly \$5000. Expenditures were \$191,400.13, against \$159,824.27 the previous November. Payment of national debt took \$23,000. In expenditures the custom house and post office are lumped. Expenses of suppressing the rebellion figure at more than \$1400, while the military received \$12,525, being about \$4000 less than in November of 1894. Expenditures under the Loan Act were close on \$30,000. The treasury balance at the end of the month was \$47,545.67, a decrease of \$9,624.71 from that of November 30, 1894. The net loan indebtedness is \$3,732,661.58, an increase in one year of \$189,390.83. Minister Damon states that the increase in revenue is accounted for in part by the payment of \$32,000 in bonds by the Board of Education for the purchase of the Bishop premises on Emma street. As the Board of Education is a branch of the Government, and is so much poorer in resources by the delivery of these bonds, the transaction is in reality of the nature of an expenditure of capital. The current account balance is but \$9406.98, with the August bills to pay, which is less than it was the same time last year by the trifle of \$94,373.02. Out of the nine thousand and odd on hand the treasury has to pay outstanding bills of more than seventy-five thousand dollars, but the Minister of Finance expects to get \$250,000 in taxes this month. In the figures of the monthly statement for last month the Star sees "entertainment," probably out of its bill for advertising the document. The BULLETIN perceives nothing in the statement but a continued decline in the state of the treasury, with a predigious increase of debt, and a serious necessity for a comprehensive financial policy that will lift the country out of the hole.

OBSERVATIONS.

An item in a Yokohama paper names the captain who is to take command of a new cable steamer now building in Scotland for the Japanese Government. Is Japan going to lay a cable across the Pacific on her own account?

There is surely no country in the world where so simple a mode of naturalization of foreigners is available as that described elsewhere as existing in Japan. Marry a native girl in her father's house and then you can deposit a ballot at next election.

There is really nothing new under the sun. A paper edited by ladies was issued at the Feast of All Nations in Honolulu last year. This does not detract anything from the present scheme of The Time.

Japan imported nearly two million dollars' worth less of sugar in the first ten months of 1895 than in the corresponding period of 1894. The Japan

Herald accounts for this by saying that the importations for 1894 were in excess of the consumption, which nevertheless it says is increasing.

RESOLUTIONS OF CONDOLENCE

Passed by Company D on the Death of Samuel Louissou.

The following testimonial was presented to the parents of the late Samuel Louissou by the committee appointed by Company D, N. G. H., at a late meeting. "Sam," as he was familiarly called by every member of the company, was the first sergeant of Company D on its organization in '93. All through that year and part of the following he was a steady attendant at drill and parades. Through ill health and press of business, however, he was compelled to retire but always turned out with the boys on the big parades and was always affectionately welcomed at the gatherings of Company D.

Resolution adopted by a unanimous vote at a regular meeting of Company D, N. G. H., held Nov. 6, 1895:

WHEREAS: By the will of the All Wise Providence, death has invaded our ranks and taken from us a comrade of unusual worth, SAMUEL LOUISSOU;

RESOLVED: That it is but a just tribute to the memory of the departed one who served with us eighteen months and rejoiced in our triumphs to say, in regretting his removal from us we mourn for one in every way worthy of our esteem and regard;

RESOLVED: That this company, extends to Mr. and Mrs. M. Louissou, the bereaved parents, and sorrowing relatives our sincere sympathy in their hour of grief, and that these resolutions be spread upon the minutes of this company and a copy sent to Mr. and Mrs. M. Louissou.

JOHN EFFINGER, Secretary.
J. L. TORBERT, Lieutenant Commanding.
F. B. OAT, Committee on Resolution.

Fine Holiday Goods.

Did you ever see a perfect dream of a rug, mat, splash, screen or fancy receptacle for scraps, made entirely of wood shavings? Did you ever see ivory hand mirrors of beautiful design, carved in a manner which denotes infinite pains and the acme of artistic talent? Did you ever see a lovely picture, painted in those subdued tones and soft tints which are indicative of an inherent knowledge of the proper combination of nature and art, and done on a piece of pile velvet? If you haven't, go around to the establishment of A. Barnes, in the Masonic Building on Alakea street, and have Mr. Barnes explain the unique process to you. Incidentally, we will remark that you will find a myriad of things there to please the eye, the taste and the pocket book of all Honolulu. Crepe shirt waists, at 75c; matting, rugs, mats, baskets, boxes, splashes, shell work; novelties in Xmas cards; Christmas and New Year's presents. All at a bargain price at A. Barnes'.

Lawn Party.

There was a large and happy throng at the lawn party of the Methodist Ladies' Aid Society at Haalea lawn afternoon and evening. All the arrangements described in advance by the BULLETIN were carried out in a perfect manner. The music of the Quintet Club was greatly enjoyed in the evening. Sales of refreshments, flowers and fancy articles were brisk.

STEAMER CHARGES.

EDITOR BULLETIN:—"Much is said and comparatively little done, concerning new and diversified industries in this country," says Professor Townsend in the Progressive Educator. And no wonder. As long as a barrel of wine will cost for transport from Kona, Hawaii, to Honolulu \$6, just what is paid to convey a ton of merchandise from Japan or China, via Suez canal, to New York, no industry can live, to say nothing of being born, in Hawaii. We need, as the BULLETIN very well says, "roads! roads!" but also, and perhaps more, cheap freight and passenger rates. The present ones are outrageous.

Timely Topics

ON:
"THE FREE AD" AND THE
SUPERIORITY OF THE
TRIBUNE WHEELS
OVER THE
STEARNS.

In our last advertisement in this column we called attention of the public to the Stearns wheels which are now being sold in this city. We stated without fear of contradiction that they were back numbers, manufactured in 1894 and shipped to the Pacific Coast as up to date wheels when they are not. We reiterate that assertion more forcibly in this ad. It has not been denied and cannot be, and we again caution buyers not to be deceived with antiquated machines which are represented as containing all the latest improvements.

An ad of the Stearns agency in an afternoon paper, praising the Tribune wheel and giving it a good send-off, refers to a letter written by H. F. Terrill, the well-known scorch, concerning the Tribune wheel. In spite of their assertion to the contrary, we deny that the agents of the Stearns wheel have seen or read the private letter of Harry F. Terrill to the Tribune rider here (meaning Tommy King) but as there is nothing secret about it we print the whole of it relating to bicycles below. If the Stearns agents can get any satisfaction out of it they are more than welcome. Mr. Terrill says: "I am riding a Stearn, 16 lbs. Say, Tom, the Tribune wheel has an awful good reputation through the East. I did not think much of it before I came East. It is considered one of the best mechanically constructed wheels in the world."

The balance of the letter refers to private matters but the Stearns agents may peruse the whole of it at any time. The explanation of Terrill's riding a Stearns wheel lies in the fact that he is under contract with the manufacturers to do so, consequently he cannot ride a Tribune although it is evident he would if he had the choice.

In our last advertisement we asked any intending purchaser to take one of the Stearns wheels to any first-class mechanic and have him take it apart and compare it with the corresponding features of the Tribune wheel. We knew that an honest opinion would be that the Tribune is by far the better wheel and hence made the challenge. We renew that challenge and intend to keep it before the public. It has not been accepted and it will not be.

We expect those Tribune Tandems on the Australia and if they arrive they will probably be seen in the New Year's races.

Don't purchase a bicycle of any kind without first examining the Tribune.
